

DOISY COLLEGE OF HEALTH SCIENCES

The Doisy College of Health Sciences incorporates Saint Louis University's long-standing tradition of excellence in health care education with modern innovations in interprofessional education, research and service. Across all of our degree programs, assisting others is central to everything we do at SLU's Doisy College. DCHS offers undergraduate, graduate, professional and certificate programs across numerous departments. Many of the programs are nationally ranked and all of them have a reputation for excellence in professional education.

Doisy College students get hands-on experience with leading-edge research, partner with diverse clinical sites across the country, and regularly exceed national averages on certification exam pass rates. Explore our offerings to see how our service to health care impacts the world. We are compassionate health care professionals providing the highest-quality care to the communities around us.

Understanding the unique contributions of various health care professionals is an essential component for meeting the needs of an increasingly complex patient population. Doisy College students learn how to work in collaborative health care teams to provide outstanding health care through opportunities to participate in the interprofessional education program. The IPE program offers both minor and concentration options. Information on both programs may be found on the IPE page. (<https://catalog.slu.edu/colleges-schools/academic-affairs/interprofessional-education/#text>)

Accreditation

Doisy College of Health Sciences programs are accredited by the respective accreditation agencies as follows:

Athletic Training

SLU's Master of Athletic Training Program is accredited by the Commission on Accreditation of Athletic Training Education (CAATE) as a graduate professional program. The Master of Athletic Training program is one of more than 250 CAATE accredited programs nationally.

Commission on Accreditation of Athletic Training Education

2001 K Street NW, 3rd Floor North
Washington, D.C. 20006
P. 512-733-9700
844-GO-CAATE (844-462-2283)
caate.net (<https://caate.net/>)

For more information about the SLU athletic training program's outcomes, graduation rates, retention rates, board of certification exam pass rates and job placement rates, please see the program outcomes data reported by CAATE (<https://caate.net/program-info/71/>).

Communication Sciences and Disorders

For more information about the SLU speech, language and hearing sciences program's student outcomes data (completion rates, Praxis exam pass rates and employment rates), CAA complaint policy and accreditation information, please see the student outcome data and accreditation information (<https://www.slu.edu/doisy/degrees/program-pdfs/csd-accreditation-0218.pdf>) below.

View Student Outcome Data and Accreditation Information (PDF) (<https://www.slu.edu/doisy/degrees/-pdf/csd-accreditation-0218.pdf>)

Health Information Management

Commission on Accreditation for Health Informatics and Information Management Education (CAHIIM)

200 E. Randolph Street
Suite 5100
Chicago, IL 60601
[cahiim.org](http://www.cahiim.org) (<http://www.cahiim.org>)

Please review the additional accreditation document below for more information on the health information management program's professional and technical standards and program outcomes.

Medical Laboratory Science

The Medical Laboratory Science program at Saint Louis University has been continuously accredited since the graduation of its first class in 1933.

We are one of the oldest programs in the nation, founded in 1929, and boast more than 90 years of educational service to the medical laboratory science profession.

The program is accredited by:

National Accrediting Agency for Clinical Laboratory Science
5600 N. River Road, Suite 720
Rosemont, IL 60018

phone: 773-714-8880
fax: 773-714-8886
www.naacls.org (<https://www.naacls.org>)

Graduate certification rates demonstrating an average of at least 75% pass rate.

Year	Rate
2022	100%
2023	100%
2024	100%

Graduation rates demonstrating an average of at least 70% of students who have begun the final half of the program go on to successfully graduate.

Year	Rate
2022	100%
2023	100%
2024	100%

Graduate placement rates demonstrating that an average of at least 70% of respondent graduates either find employment in the field or a closely related field (for those who seek employment) or continue their education within one year of graduation.

Year	Rate
2022	100%
2023	100%
2024	100%

Physician Assistant

The Accreditation Review Commission on Education for the Physician Assistant, Inc. (ARC-PA) has granted Accreditation-Continued status to the Saint Louis University Physician Assistant Program sponsored by Saint Louis University. Accreditation-Continued is an accreditation status granted when a currently accredited program is in compliance with the ARC-PA Standards.

Accreditation remains in effect until the program closes or withdraws from the accreditation process or until accreditation is withdrawn for failure to comply with the Standards. The approximate date for the next validation review of the program by the ARC-PA will be June 2033. The review date is contingent upon continued compliance with the Accreditation Standards and ARC-PA policy.

The program's accreditation history can be viewed on the ARC-PA website at arc-pa.org/accreditation-history-saint-louis-university/ (<https://www.arc-pa.org/accreditation-history-saint-louis-university/>).

Radiation Therapy

The Radiation Therapy Program at Saint Louis University is fully accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT), having been awarded an eight-year accreditation. It is the only JRCERT-accredited radiation therapy program in the state of Missouri. The program's next scheduled reaccreditation review by the JRCERT will be July 2025. The program's current award is eight years. General program accreditation information and the current accreditation award letter can be found on the JRCERT website (<https://www.jrcert.org/programs/saint-louis-university-2/>).

Policies

General Admission Requirements

Admission requirements and procedures for the programs vary. Prospective students should contact the recruitment specialist for the Doisy College of Health Sciences with specific questions at dchs@health.slu.edu (dchs@slu.edu) or 314-977-2570.

Saint Louis University's Office of Admission, housed under the Division of Enrollment and Retention Management, begins reviewing freshman applications for admission and scholarship for the following year on a rolling basis beginning September 1. Students may also complete the Common Application. Students who apply using the Common Application will be considered for admission on the same terms and within the same timeframe as those who use the general freshman application.

To receive priority consideration for University merit-based scholarships, admission applications must be submitted by **December 1**. Students who meet this deadline will be automatically considered for a range of Saint Louis University's merit-based scholarships. Applications submitted after December 1 will be given scholarship consideration based on the availability of funds.

To be considered for the Medical Scholars, Physician Assistant Scholars, Pharm.D. Scholars, Nutrition and Dietetics Scholars and/or the Honors programs students are encouraged to visit [slu.edu](http://www.slu.edu) (<http://www.slu.edu/>) and/or contact the specific office(s) directly. Each program has a separate application and application procedure.

Clinical Internship Experience

Clinical internship experiences in clinical practice settings (i.e., hospitals, clinics, schools, etc.) are a required component of select Doisy College of Health Sciences programs. Regulations require all students in programs with one or more clinical internships to complete a criminal background check and a drug test at least once during the program; either or both of these may be repeated as clinical placement site requirements demand. Positive results from the criminal background check or drug tests may result in ineligibility to graduate from the program. A felony conviction will affect a graduate's eligibility for professional licensure, certification

and professional practice. Additional and program-specific information about the requirements may be obtained directly from the program.

All students who participate in clinical learning experiences are required to complete a criminal background check prior to the first clinical practicum. Additional criminal background checks may be required based on the contractual agreements with the college's clinical affiliate facilities. Further, drug screening is required for clinical practicum work. Prior to submitting an application, prospective applicants are encouraged to consult with the chosen profession's governing or licensing organization for more detailed information.
