

CANNABIS SCIENCE AND OPERATIONS, MINOR

Saint Louis University offers an online minor in cannabis science and operations to help meet the demand for quality employees as cannabis legalization becomes more common. The global marijuana market size is expected to reach \$102.2 billion by 2030.

This minor program addresses all aspects of the cannabis industry, including cultivating, growing and producing. You will learn about dispensing and the pharmacological properties of cannabis. Graduates of this minor can pursue positions in sales and marketing, dispensary management, quality assurance and laboratory technology, among other areas.

Careers

The list of possible jobs in the cannabis industry is quite extensive. With a minor in cannabis science and operations, you will be prepared to pursue various in-demand positions in the following broad categories:

- Cultivation
- Laboratory technology
- Distribution logistics
- Dispensary management
- Regulatory compliance
- Sales and marketing
- Quality assurance
- Wellness specialist
- Edible development
